ESG Score Trends & KPI Status

KPI Status vs 2025 Targets

Overall ESG improved from **67** → **71** across 2022–2024. Governance is driving improvement; Social remains the weakest pillar.

- **1 On Track:** Scope 2 Emissions Reduction
- **9 Off Track:** Pay Gap, Female Leadership, Injury Rate, Training Hours, Supplier Compliance, Board Independence, Policy Compliance, Data Breaches
- **1 In Progress:** Scope 1 Emissions Reduction

Dataset & Methodology

Synthetically generated data modeled on CSRD reporting standards — 55,595 records across 5 tables in MySQL, covering 12 facilities in 4 regions over 3 years.

Dataset	Rows	Period	Contents
Energy & Emissions	23,447	Jan 2022 – Dec 2024	Meter readings per facility/month
Workforce & Social	26,928	Jan 2022 – Dec 2024	Employee records per year
Supplier Compliance	897	Jan 2022 – Dec 2024	150 vendors, audit records
Governance	4,320	Jan 2022 – Dec 2024	Policy compliance per facility/month
KPI Summary	3	2022–2024	Annual ESG scores

Environmental Performance

18.90K tCO₂e

Scope 1 Emissions

1.28K tCO₂e

Scope 2 Emissions

3.79%

Renewable Energy

⚠ **Shanghai Manufacturing** emits 3,342 tCO₂e — **27% above** the next highest facility (Chicago). Scope 1 vastly exceeds Scope 2; renewable procurement is the highest-leverage reduction lever.

Social Performance

Gender Pay Gap by Facility — Top 5 Worst

12.99% Gender Pay Gap

2.6× above the 5% CSRD target. Consistent across all 12 facilities with no year-over-year improvement.

35.42% Female Leadership

Zero improvement across 3 years. Below the 40% target with **no corrective momentum** — most urgent Social finding.

3.56% Injury Rate

Off track vs. 2.0 per 100 target. Avg training hours at 31 — below the 40-hour target.

Governance & Supplier Risk

26% of supplier audits resulted in Failed status. High Risk suppliers average only **50/100** with labor compliance at 71.20%. Board independence and policy compliance show year-over-year gains — Governance is the strongest pillar at **79.59**.

49.49%

Board Independence

84.73%

Policy Compliance

71.20%

Supplier Labor
Compliance

67

Data Breaches (total)

SQL Analysis & Data Cleaning

27 analytical queries across all 5 tables using window functions, CTEs, and nested CASE WHEN logic.

Environmental (Q4–10)

Emissions by facility, YoY change, renewable adoption

Social (Q11–19)

Pay gap, diversity, injury rate, supplier compliance

Governance (Q20–24)

Board independence, breaches, whistleblower trends

All Pillars (Q25–27)

KPI dashboard, ESG score trend, on/off track count

- ❑ **Critical Cleaning Decision:** Null `regulatory_fines_usd` = no fine (fill 0). Null `audit_score` = unrecorded measurement (fill grouped median by risk profile). Distinction between *missing event* and *missing measurement* is the most important judgment call.

Key Findings & Recommendations

1 **Address Gender Pay Gap**
12.99% — 2.6× above 5% target. Conduct pay equity audit within 90 days; implement salary band transparency.

2 **Female Leadership Program**
35.42% with zero improvement in 36 months. Introduce formal pipeline with sponsorship and quarterly reviews.

3 **Shanghai Emissions Priority**
27% above next-highest facility. Target energy upgrades and renewable procurement with executive review.

4 **Renewable Energy & Supplier Intervention**
3.79% renewable — target 25% by 2025. 43% of High Risk suppliers failed — 90-day corrective action for all Failed suppliers.

5 **Board Independence Pathway**
49.49% vs. 60% target. Identify 2–3 independent ESG directors. Target 55% by 2025, 60% by 2026.

Appendix — Data Dictionary

Energy & Emissions

- `facility_id` — FAC-001 to FAC-012
- `meter_type` — Gas, Diesel, Grid, Renewable
- `scope` — Scope 1, Scope 2, N/A
- `emissions_tco2e` — Tonnes CO₂e

Workforce & Social

- `job_level` — Junior to C-Suite
- `current_salary` — USD, gender-adjusted
- `training_hours` — Annual hours per employee
- `had_injury` — Workplace injury flag

Supplier Compliance

- `risk_profile` — Low, Medium, High Risk
- `audit_score` — 0–100 overall score
- `labor_compliance_pct` — Labor standards %
- `audit_result` — Approved / Failed / etc.

Governance

- `board_independence_pct` — Independent directors %
- `policy_compliance_pct` — Compliance rate 0–100%
- `data_breach_incidents` — 0, 1, or 2
- `regulatory_fines_usd` — USD fines (0 if none)
